Re: *E911 Compliance Deadlines for Non-Nationwide Tier III CMRS Carriers*
CC Docket No. 94-102
Withdrawal of North Dakota PCS Alliance Petition for Waiver

Dear Ms. Dortch:

In an *Order to Stay* issued in CC Docket No. 94-102 that was released on October 10, 2003, the FCC granted additional time for certain named Tier III CMRS carriers to come into compliance with the Commission's E911 Rules. The *Order to Stay* also directed Tier III carriers that still need extensions of the E911 Phase II deadlines to provide supplemental information by Monday, November 10, 2003, to support their waiver requests. The North Dakota PCS Alliance ("the Alliance") was one of the Tier III carriers named in the *Order to Stay* because it filed its request for relief a short time after the Commission issued its *Non-Nationwide Carriers Order* in CC Docket No. 94-102.¹

North Dakota Network Company ("NDNC") is filing this letter to notify the Commission's staff that NDNC is the successor in interest to the broadband PCS F-Block license that was the subject of the *Alliance Petition* as the result of a license assignment transaction that was closed in November of 2002.² Because NDNC is a Tier III CMRS carrier and because its similar request for relief was granted in the *Non-Nationwide Carriers Order*, NDNC hereby notifies the Commission that the request for further relief set forth in the *Alliance Petition* should be considered moot.

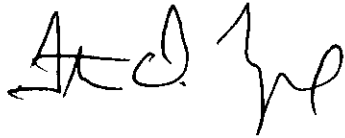

¹ See North Dakota PCS Alliance Petition for Waiver of E911 Phase II Location Technology Implementation Rules, CC Docket 94-102, (filed, July 31, 2002) ("*Alliance Petition*").

² A footnote in the *Alliance Petition* indicated that the license for Broadband PCS Station KNLH236 was the subject of a pending assignment application that was filed on June 18, 2002, under FCC File No. 0000916174. That transaction has closed and the required notification of consummation was filed on October 3, 2002. See FCC Form 603 Required Notification under FCC File No. 0001047659.
